

The campus:

- Library with over 600,000 volumes and electronic access to México digital data banks.
- Foreign language center: English, French, Italian, German and Spanish. Multimedia self-access language laboratory. The Language Department also offers a conversation club program in which foreign students are encouraged to participate.
- Sport facilities: gym, indoor playing courts, outdoor playing fields and courts, and track and field facilities.
- 102 specialized laboratories for electronics; systems; networks; electronic design; civil; industrial; mechanical and chemical engineering; process simulation; television; radio; photography; design and multimedia.
- 49 tree-shaded hectares (100 acres) with a botanical garden and water-treatment plant.
- Technology Park, a facility devoted to the research, design and development of high quality, technology-based projects and businesses.
- Bank branch, travel agency, bookstore, and infirmary.

Casa ITESO Clavigero

This extension of the University promotes the cultural heritage of the region and the building itself was recognized as an “Artistic Monument of the Nation” by the National Institute of Fine Arts (INBA) in 2006. It is located in the city center of Guadalajara and is frequently used as a venue for expositions, workshops, seminars and conferences.

ITESO

ITESO the Jesuit University of Guadalajara was founded in 1957 and belongs to a network of more than 228 Jesuit universities around the world. ITESO is part of the Jesuit educational system, a 450-year-old tradition, which is profoundly linked to social responsibility and justice.

As an exchange student you will be part of a multi-cultural student body with more than ten thousand students from Guadalajara and other parts of Mexico, as well as from other countries such as Argentina, Brazil, Finland, France, the Netherlands and the United States. To enrich your university experience you are also encouraged to participate in all the cultural and recreational activities offered at ITESO, like workshops in dancing, music, theatre and sports programs and classes.

Through the International Office you are also able to sign up for a buddy - an ITESO student who will help you with all the doubts you may have before and upon arrival and we can also guide you in the search for accommodation

The University Experience:

ITESO offers you the following programs to enhance your experience as an international student.

- **Three plus One Program:** Designed specifically for students with lower levels or no previous Spanish studies. It affords students the opportunity to take curricular courses taught in English plus one Spanish language course.
- **Professional Application Projects (PAP):** These projects are intimately linked with the society. PAP are designed to improve the quality of life of others and to reinforce the social commitment students will have within their given profession. The student will apply knowledge, professional skills, and direct participation in the proposal and implementation of plans and strategies, creating solutions to local issues. The teams of students and professors are interdisciplinary and because of their work with the community, a B2 level of Spanish is required. PAP are registered as courses within the ITESO curriculum.
- **Service learning projects:** Experiences providing encounters and interaction between students and rural or urban communities, with some of the major projects being related to popular education, environmental justice and migration.
- **Cultural and art programs:** Include courses and workshops in music, literature, visual arts, performance. All of them open to international students, and designed to develop your creative skills and make your stay at ITESO a unique experience.

Undergraduate programs:

Humanities

- Advertising and Strategic Communication**
- Architecture*
- Art and Creation*
- Clothing and Fashion Design*
- Communication and Audiovisual Arts**
- Communication Sciences**
- Cultural Project Management**
- Design*
- Educational Sciences**
- International Relations*

- Psychotherapy*
- Philosophy and Social Sciences*
- Computer Systems* 

Specialities:

- Embedded Systems *
- Improvement of Business Processes**
- Public Integrity and Anti-corruption Strategies**
- Supply Chain Management*
- System-On-Chip Design*
- Taxes with Social Responsibility**

*Classroom modality

**Mixed modality

(RVOE) as set forth by Ministerial Agreement No. 15018, published in the Official Journal of the Federation on November 29, 1976.

Guadalajara

Guadalajara is an exceptional location for studying abroad. The city, also called “The Pearl of the West”, is the second largest in Mexico and the capital city of the state of Jalisco. The city is located near gorgeous beaches, cool pine forests, and the largest freshwater lake in Mexico. Guadalajara is known for its excellent and tempered climate year around.

Students can take advantage of the cultural, historic and modern advantages of this “most Mexican” of cities. Guadalajara is the birthplace of mariachi and tequila, but is also known as the Silicon Valley of Mexico. The city boasts an impressive variety of cultural events throughout the year, including the International Book Fair, International Film Festival, International Mariachi Festival, and many others. The food is amazing, the people are friendly and the educational opportunities are excellent.
